

COMPANION DOG SPORTS PROGRAM DISCUSSION AND PRACTICE

Tuesday, September 12, 2017 10:00AM - 1:00PM
Location: Marion-Alachua Dog Training Assoc. Training Facility
3630 SW 74th Ave. Ocala Fl. 34474-6451

This discussion and practice is part of the CDSP 7 week class at MADTA. Those pre-registered for the class may attend for no additional fee.

If you wish to drop-in to class for the September 12th introduction to CDSP only, the fee is \$20 with a dog and \$10 without a dog. There is a 20 dog limit and class registrants have reserved spots.

Discussion will cover all levels. Practice for the dogs will cover Starter and Novice. Handouts to register with CDSP and a rule book will be included for both class members and those registered as drop-ins.

CDSP is a natural style of competition obedience, based on dog-friendly training methods, where handlers are allowed to talk to and praise their dogs during most of the exercises. You may give the dog a food treat at the end of each exercise. There are no exercises where there are two dogs in the ring at the same time.

In CDSP Obedience Trials, teams work to earn titles in 5 levels of classes: Starter Novice, Novice, Open, Utility and Versatility. The exercises performed in each class are based on those in the more traditional venues.

CDSP Competition Obedience is a great complement to traditional competition obedience! It will help you and your dog make a smooth and successful transition from the training ring to the traditional performance ring. It is also ideal for veteran dogs, as jump heights have been lowered to three-fourths of your dog's height at the shoulder. Disabled dogs may jump even lower heights upon submission of an exercise modification form. CDSP competition Obedience is truly ideal for all dogs!
